Republicans Determined that "Jim" Miller Shall Rule No Longer.

PEOPLE AWAKE TO THEIR DUTY.

Leaders Working Hard to Pull the Rock-Ribbed Democratic County Over Into the Republican Column. Perry Shanor Doing Yeoman Service on the Stump in that Section. Object Lesson of McKinley Good Times.

Special Correspondence of the Intelligencer.

HINTON, W. Va., Sept. 19.—Summers county has always been considered a rock-ribbed Democratic county. With religious regularity it has rallied up a Democratic majority, although in recent years it has been smaller. At rare intervals a Republican would break through the breastworks of the "unterrified" and land on the winning side, but such instances have been few and far between. The predominant party could always expect a safe majority, and have never been disappointed so far as the state and national tickets were concerned, and very rarely with the county ticket. But although this was the case, and although the discouragement of defeat constantly stirred them in the face, the Republicans of the county are of the stuff that finds earnestness and determination even in adversity, and each succeeding year found them better equipped for the contest, and more hopeful than ever of victory. Adversity was to them simply the stimulus to new efforts more energetic than their former ones. They fought all the time, and never for a moment wavered when the result was announced as unfavorable.

The Democratic organization of this county, basking in the sunlight of almost continuous victory, strengthened by the spoils of success, became strong and more impregnable each year. Yet, as they added to their fortifications, increased their equipment and strengthened their lines, the Republicans, instead of becoming disheartened, were the more determined to carry the fortress and plant the banner of Republican supremacy upon the summits of the everlastingly hills of Summers county.

Republicans Want a Change.

At the commencement of this campaign, the party of progress, protection and sound money, under the leadership of the wheel horses, determined that a change should occur, and that this country should hereafter repose in the Republican column. With this determination, with the conditions favorable, they went to work with an enthusiasm and energy that always brings about victory. The organization was perfected and the rank and file of the party put in better fighting trim than ever before, and to-day, six weeks from the election, everything points to Republican success, and to the joyful consummation of the hopes of years. The opposition is "on the run." They have seen the "handwriting on the wall."

Accept the Eternal Truth.

They are convinced that the intelligence of the good people of this country will no longer endorse the party of incompetency and adversity, but will accept the eternal truths of experience and history and ally itself with the Republican party.

Every indication points to Republican success. Especially is this true to-day after a week's work by Hon. P. A. Shanor, who has spent the week in an itinerant, including every district. Where Republican meetings have been small, and even where the Democratic managers have billed counter attractions to prevent their followers from hearing the "gospel of prosperity," the Republican audiences have exceeded the capacity of the school houses, and have been compelled to go out into the open air for sufficient room. Pipestem district four years ago gave over ninety majority for the Democratic ticket.

Democrats Outdone.

On Wednesday Mr. Shanor was advertised to speak in the district at two o'clock. At the same hour a Democratic meeting was billed. More than one hundred and fifty people attended the Republican meeting, and Democratic advisers reported from twenty to thirty as their audience. The same trend of sentiment was disclosed all over the

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin. To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S. and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now as healthy as a horse and a sign of the embarrassing disease has never returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

SWIFT SPECIFIC COMPANY, ATLANTA, GA.

county. A score of life long Democrats publicly abandoned their party and joined Republican clubs. Many more will quietly and secretly vote for a continuance of their good times, not frightened by the bugaboo of imperialism. Last night in Hinton, an audience filling the large court house, greeted with vociferous applause Mr. Shanor's exhaustive exposition of Republican principles.

Mr. Shanor was interviewed to-day by the Intelligencer representative, and among other things, said:

Republicans Determined and Aggressive.

"I have been in every district in Summers county. I have been in the homes of people and grasped their hands, and I have never seen a more determined, aggressive and enthusiastic body of Republicans than there are in this county. They feel the benefit of protection and are determined to use their power to secure its continuance. I found no disaffection in our ranks. Harmonious and united, they are in better 'fighting trim' than ever before."

THE SAPPHO GOWN.

This dainty little pink striped flannel empire room gown has been named the Sappho by its designer. The Grecian poetess would have worn just such a negligee, no doubt, had the opportunity been given her. Note the artistic sleeves and embroidered collars and girdle. From James McCreery & Co. Posed by Miss Katherine Pearl.

The audiences were uniformly large and enthusiastic, containing many Democrats. At nearly every point the crowds exceeded the capacity of the buildings. Summers county depends almost entirely upon the C. & O. railroad for prosperity, and the farmers realize that protection has made the railroad towns magnificent interests. They can sell their products at Hinton and other railroad points now for cash, at prices two or three times what they got in '96.

Object Lesson to All.

"Each one has an object lesson of the individual benefits to him of Republican administration, and does not propose to lose them through any fright caused by the Imperialistic ghost."

"Summers county will be found in the Republican column on the seventh day of November, and shall never leave the good company there secured. Democrats are daily joining the ranks of the party of protection. Many of them openly joined our clubs, and many others were home the 'countenance of conviction,' which will be seen in the ballot box in November."

Will Vote for Their Homes.

"This year, at least, the people of this county will vote for their homes, and no amount of calamity howling can change their determination."

Mr. Shanor is an elegant and forceful speaker, and feels very much encouraged at the outlook for Summers, notwithstanding the fact that Summers is the home of Hon. James H. Miller, now candidate for Auditor. For the past 16 years Mr. Miller has manipulated politics in Summers, succeeding at each election. Mr. Miller is not only "up against it" himself, but his law partner, T. N. Read, who is a candidate for prosecuting attorney for Summers, will go down also in November for want of votes. The present era of prosperity is 16 to 1 greater than the Imperialism bugaboo.

He was forty-seven years of age, and leaves an estate, it is said, consisting of seven or eight farms and \$12,000 in cash.
